

OCC — Electrical Trades Technology (ETT) Catalog

Online course catalog for Oakland Community College's Electrical Trades Technology (ETT) program. Includes industrial, residential, and commercial wiring; National Electrical Code (NEC); electrical machines; and control wiring with PLC integration. Useful reference for apprentices and skilled trades students planning electrical careers.

How to use:

- Open the catalog to view Electrical Trades Technology (ETT) course descriptions.
- Review prerequisites, credit hours, and National Electrical Code (NEC) content.
- Identify apprenticeship pathways and related Skilled Trades programs.
- Use this catalog as a reference when planning electrical or maintenance careers.

Last update noted by OCC: 2025–2026 Catalog Edition
